The practice was established in 1982 and has operated as Rennie Scurr Adendorff Architects with John Rennie, Mike Scurr and Shaun Adendorff as partners since 2002.

The practice has received a total of 9 Cape Institute of Architects and SA Institute of Architects Awards for Architecture and Conservation. The practice is registered with the South African Institute of Architects (SAIA), The Cape Institute for Architecture (CIA) and the South African Council for Architects (SACA). Projects have been completed throughout Cape Town and up the West coast, the Boland, Southern Cape, East London, Johannesburg and Durban. The firm also provides an interior design service and has undertaken retail, office and home interiors.

Most of the practice's domestic commissions have involved building new houses (or renovating existing houses) which are situated in environmentally or historically sensitive contexts. Consequently, response to climate, site and context are primary drivers of the specific design response, along with providing innovative, cost effective and practical solutions to suit client needs.

The website at www.archrsa.com provides detailed company information and full project profile.

The accompanying images illustrate a range of domestic projects from the Practice portfolio.
